NEWS RELEASE

***dyna*CERT ANNOUNCES NON-BROKERED PRIVATE PLACEMENT AND CLOSING OF FIRST TRANCHE**

Toronto, Canada – *dyna*CERT Inc. (TSX –V: DYA) ("*dyna*CERT" or the "Corporation") announces subject to TSX Exchange approval, to raise on a reasonable best efforts basis a non-brokered private placement (the "Offering") for aggregate gross proceeds of up to \$1,500,000.

Under the Offering, the Corporation will offer a total of 10,000,000 units (each, a "Unit") at price of \$0.15 per Unit. Each Unit will be comprised of one common share in the capital of the Corporation (each, a "Common Share") and one common share purchase warrant (each, a "Warrant"), with each Warrant being exercisable into one Common Share at a price of \$0.25 for a two year period from the date of issuance. The Warrants will include an acceleration clause to the effect that if at any time after four (4) months and one (1) day following the issuance of the Warrants, the closing trading price of the Common Shares on the TSX Venture Exchange (the "Exchange") is greater than Cdn\$0.50 per Common Share for a period of ten (10) consecutive trading days, then *dyna*CERT may give notice to the holders of Warrants of its intention to force the exercise of the Warrants, following which the holders thereof shall have a period of 30 days to exercise the Warrants, failing which the Warrants will automatically expire. The proceeds of the Offering will be used for working capital and manufacturing.

The Corporation has completed the first tranche of the offering. It has received subscriptions from 4 separate subscribers in the aggregate amount of \$185,000 for 1,233,334 units. The President & CEO and a director of the Corporation have participated in the Private Placement for 500,000 and 166,667 Units respectively.

Closing of the Offering is subject to receipt of approval from the Exchange and is expected to occur in two or more tranches.

About *dyna*CERT Inc.

*dyna*CERT Inc. manufactures, distributes, and installs Carbon Emission Reduction Technology for use with internal combustion engines. Our patent-pending technology creates hydrogen and oxygen on-demand through electrolysis and supplies these additives through the air intake to enhance combustion, resulting in lower carbon emissions and greater fuel efficiency. Our technology is currently in use with on-road applications. More information can be found at www.dynacert.com.

READER ADVISORY

Except for statements of historical fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could

cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: uncertainty as to whether our strategies and business plans will yield the expected benefits; availability and cost of capital; the ability to identify and develop and achieve commercial success for new products and technologies; the level of expenditures necessary to maintain and improve the quality of products and services; changes in technology and changes in laws and regulations; the uncertainty of the emerging hydrogen economy; including the hydrogen economy moving at a pace not anticipated; our ability to secure and maintain strategic relationships and distribution agreements; and the other risk factors disclosed under our profile on SEDAR at www.sedar.com. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of the release.
