dynaCERT President & CEO Jim Payne Announces Participation in the 5th Annual Cleantech & Technology Metals Summit

TORONTO, ON--(Marketwired - April 27, 2016) - *dynaCERT* Inc. (TSX VENTURE: DYA) (OTC: DYFSF) ("*dynaCERT*" or the "Corporation") is pleased to announce that its President and CEO, Jim Payne, joins a distinguished list of industry leaders attending the 5th Annual Cleantech and Technology Metals Summit on May 10-11th in Toronto, Ontario (www.CTMS2016.com). The two-day summit brings together the world's most influential clean technology and energy companies, investors, and policymakers who aim to commercialize energy-conserving, highly efficient, and low-carbon technologies.

Innovations in clean technology have transformed the global technology metal market with rising demand for emissions and waste management and technology metals capable of meeting global needs. Among the companies leading the cleantech revolution is dynaCERT. Mr. Payne will be on the Panel: The Carbon Economy - Technologies Changing the Global Market -- being held at 4:10 -- 5:00 pm on Wednesday, May 11th to provide insight into dynaCERT's game-changing technology and their role in the future low carbon economy.

"We are very pleased to be invited to participate in the Annual CleanTech and Technology Metals Summit," said Jim Payne, President and CEO of dynaCERT Inc. "This is a great forum to gather with companies at the forefront of assisting in the global needs for waste management, technology metals and reduction of carbon emissions."

About *dynaCERT* Inc.

dynaCERT Inc. is an Ontario based company that manufactures, distributes, and installs Carbon Emission Reduction Technology for use with internal combustion engines. Our patent-pending technology creates hydrogen and oxygen on-demand through electrolysis and supplies these additives through the air intake to enhance combustion, resulting in lower carbon emissions and greater fuel efficiency. Our technology is currently in use with on-road applications. More information can be found at www.dynacert.com.

READER ADVISORY

Except for statements of historical fact, this news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. In particular, forward-looking information in this press release includes, but is not limited to periodic updates of results, testing programs and results, negotiations with third parties concerning potential business transactions, and the timing of certain going forward projects. Although we believe that the expectations reflected in the forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, performance or achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.

Forward-looking information is based on the opinions and estimates of management at the date the statements are made, and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: uncertainty as to whether our strategies and business plans will yield the expected benefits; availability and cost of capital; the ability to identify and develop and achieve commercial success for new products and technologies; the level of expenditures necessary to maintain and improve the quality of products and services; changes in technology and changes in laws and regulations; the uncertainty of the emerging hydrogen economy; including the hydrogen economy moving at a pace not anticipated; our ability to secure and maintain strategic relationships and distribution agreements; and the other risk factors disclosed under our profile on SEDAR at www.sedar.com. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of the release.
